Will Rogers Opens Additional Cell Phone Waiting Area

OKLAHOMA CITY – Motorists picking up arriving passengers at Will Rogers World Airport will now have an additional cell-phone waiting area closer to the terminal building. The new area is located just off of Terminal Drive, with signs designating the area.

The area allows motorists to wait for free until their arriving passengers are ready to be picked up at the terminal curbside. One of the best features is its proximity to the terminal; the waiting area is located within one-quarter mile of the terminal building, with a drive time less than a minute.

The opening of the waiting area does require adherence to the rules of the airport. Most importantly, drivers must remain with their vehicle at all times, or be subject to towing.

A second waiting area, located at the flag plaza on the north end of the shuttle parking lot, will remain open. Additionally, if those picking up wish to greet their party inside the terminal, they can take advantage of the hourly parking lot where the first hour is free.
